

ACM Environmental plc

ENVIRONMENTAL POLICY STATEMENT

ACM Environmental plc recognise that within our provisions for providing solutions to the handling and control of waste, we inevitably impact on the environment and thus are committed to minimize the potentially harmful effects of such processes wherever and whenever possible.

To confirm the above commitment, management has enhanced our company management system to meet the requirements of ISO 14001:2004 and developed this Environmental Policy Statement, appropriate to our operations as described above. This policy enables us to set objectives towards sustainable environmental improvement which can be measured and monitored regularly and in turn contribute to prevention of pollution and future protection of the environment.

All employees are encouraged to understand and implement the objectives of this policy in their day-to-day work through the regular discussion, communication and training.

The CEO has specific responsibility for policy development, co-ordination and evaluation of performance. ACM Environmental plc is committed to minimizing the impact of its operations on the environment by means of a programme of continuous improvement.

In particular our Company will:

- a. Ensure appropriate resources will continually be made available to ensure the environmental policy is implemented in full.
- b. Discuss environmental issues with all employees, conduct training programs and encourage best implementation practice by all Company personnel.
- c. Meet and where appropriate, exceed the requirements of all relevant legislation and any other requirements to which we subscribe - where no regulation exists we shall set our own exacting standards.
- d. Communicate with our customers on environmental issues through proactive assistance.
- e. Work with our suppliers and sub-contractors to minimise the impact of their operations on the environment through a quality purchasing policy.
- f. Ensure that we apply the waste hierarchy of; prevention, prepare for re-use, recycling, other recovery and disposal for both our own and on behalf of our customers
- g. Seek to reduce the following: -
 - Consumption of materials in all operations, re-use rather than dispose wherever possible, and to promote re-cycling and the use of re-cycled materials.
 - Whenever and wherever practicable the level of pollution and harmful emissions.
 - Noise, visual and other impacts on the local environment.

Regular review and monitoring of environmental performance will be actioned to ensure our environmental objectives and targets as described above are maintained at all times.

Additionally, this Environmental Policy Statement will be made available to all interested parties upon request.
